

Type	PubNo	Rotation	Topic	Title	Presenter
Poster	P-001	1	Adult Congenital Heart Disease	Outcome of Down patients with repaired versus unrepaired atrioventricular septal defect	Werner Budts
Poster	P-002	1	Adult Congenital Heart Disease	Decreased cardiac reserve in asymptomatic patients after ASO for transposition of the great arteries.	Werner Budts
MP	P-003	1	Adult Congenital Heart Disease	Factors that may influence symptoms during pregnancy in women with congenital heart disease - data from the Swedish birth registry	Malin Berghammer
Poster	P-005	1	Adult Congenital Heart Disease	Assessment of microvascular dysfunction in adults with congenital heart disease	Inne Vanreusel
Poster	P-006	1	Adult Congenital Heart Disease	Retinal vessel analysis in adult patients with congenital heart disease.	Jan Müller
Poster	P-008	1	Adult Congenital Heart Disease	Safety of transcatheter ASD closure in elderly patients	Petya Stoyanova Parashkevova
Poster	P-009	1	Adult Congenital Heart Disease	10-year Single-center Experience of Surgical Pulmonary Valve Replacement in GUCH patients	Armin Darius Peivandi
Poster	P-011	1	Adult Congenital Heart Disease	Long-term Home-Based Physical Endurance and Inspiratory Muscle Training for Fontan patients	Lena Walzer
Poster	P-012	1	Adult Congenital Heart Disease	A case of successful lymphatic embolization for refractory PLE after Fontan surgery	Atsuhito Takeda
Poster	P-013	1	Adult Congenital Heart Disease	Long term pacing mode effect on echocardiographic strain analysis in Fontan palliated children	Sonia Albanese
Poster	P-014	1	Adult Congenital Heart Disease	Efficacy and safety of direct-acting oral anticoagulants (DOAC) versus vitamin K antagonist (VKA) for patients with congenital heart disease (CHD)	Sedra Al Yousef
Poster	P-015	1	Adult Congenital Heart Disease	A Case of multiple late complications of Mustard operation for Transposition of Great Arteries	Alkistis Eleni Kalesi
Poster	P-016	2	Adult Congenital Heart Disease	Effects of Exercise Training on Lymphatic Function in Fontan Patients – A Controlled Trial	Lene Thorup
Poster	P-017	2	Adult Congenital Heart Disease	Operated tetralogy of Fallot: clinical and echocardiographic approach in adult life	Mahdi Walha
Poster	P-018	2	Adult Congenital Heart Disease	Predictive factors of mortality and heart failure in children and adults with Ebstein anomaly	Sylvie Di Filippo
Poster	P-020	2	Adult Congenital Heart Disease	Accuracy of oxygen uptake efficiency slope in adult patients with Fontan circulation	Raquel Ladron
MP	P-021	2	Adult Congenital Heart Disease	Shared Decision-Making in Decisionally-Impaired Adults. Considerations for the Congenital Heart Provider.	David Vinas Fernandez
Poster	P-022	2	Adult Congenital Heart Disease	Conduit stenosis as another complication of Fontan circulation: single-center retrospective study	Atsuko Kato
Poster	P-023	2	Adult Congenital Heart Disease	Challenges and Outcomes of Establishing a Department of Adult Congenital Heart Surgery in a Private Hospital in Greece	Andreas C. Petropoulos
Poster	P-024	2	Adult Congenital Heart Disease	Respiratory function of adult congenital heart disease	Yasumi Nakashima
Poster	P-025	2	Adult Congenital Heart Disease	Severity of aortic coarctation impact to renal perfusion	Sigitas Cesna
Poster	P-027	2	Adult Congenital Heart Disease	Challenges of Quad Therapy in adult congenital heart disease patients with heart failure	Norihisa Toh
Poster	P-028	2	Adult Congenital Heart Disease	Adult Congenital Heart Disease (ACHD) Training: A Pan European Survey and Joint ESC and AEPCC Collaboration	Colin J. McMahon
Poster	P-029	2	Adult Congenital Heart Disease	Congenital heart defects in NIPBL positive patients with Cornelia de Lange syndrome.	Ewa Maria Sokolewicz
Poster	P-030	1	Cardiac Dysrhythmias and Electrophysiology	Use of a Mixed Reality System for Navigational Mapping During Electrophysiology Procedures Does Not Prolong Case Time	Jennifer Silva
Poster	P-031	1	Cardiac Dysrhythmias and Electrophysiology	Successful treatment of frequent premature ventricular contractions and ventricular tachycardia with flecainide in a case of RYR1-related myopathy	Yuji Maruo
Poster	P-032	1	Cardiac Dysrhythmias and Electrophysiology	Impact of maternal connective tissue disease on conduction abnormalities in the offspring	Sarah Sofie Andersen
Poster	P-033	1	Cardiac Dysrhythmias and Electrophysiology	Cardiac Resynchronization Therapy in Congenital Heart Disease	Yannic Wilberg
Poster	P-034	1	Cardiac Dysrhythmias and Electrophysiology	The impact of maternal and perinatal factors on the neonatal electrocardiogram	Caroline Boye Thygesen
Poster	P-035	1	Cardiac Dysrhythmias and Electrophysiology	Long-term outcomes of patients with implantable cardioverter-defibrillators implanted in childhood: transvenous vs. nontransvenous system	Terezia Tavačová
Poster	P-036	1	Cardiac Dysrhythmias and Electrophysiology	Perinatal Malignant Arrhythmias in Timothy Syndrome - Updates from an International Cohort	Alexandra Matthews
Poster	P-037	1	Cardiac Dysrhythmias and Electrophysiology	Real world prevalence of cardiac channelopathies in a paediatric tertiary care center	Manfred Marx
Poster	P-038	1	Cardiac Dysrhythmias and Electrophysiology	Morphology of premature ventricular contractions in a large cohort of 24316 children	Gabriel Cismaru
Poster	P-039	1	Cardiac Dysrhythmias and Electrophysiology	Transvenous lead advancement in paediatric pacing to overcome growth stretching	Luigina Porco
Poster	P-040	1	Cardiac Dysrhythmias and Electrophysiology	ICD outcome in pediatric arrhythmogenic cardiomyopathy: a single center experience	Marianna Cicienia
Poster	P-041	1	Cardiac Dysrhythmias and Electrophysiology	A rare complication of paediatric PM and ICD: intracardiac lead thrombosis	Marie Laure Yammine
Poster	P-042	1	Cardiac Dysrhythmias and Electrophysiology	Junctional ectopic tachycardia as side effect of catheter ablation of AVNRT in 1 15-years old girl	Gabriel Cismaru
Poster	P-043	1	Cardiac Dysrhythmias and Electrophysiology	Case report of smart wearable technology in paediatric cardiology	Arveen Devindaran
Poster	P-044	1	Cardiac Dysrhythmias and Electrophysiology	Phenotypic Heterogeneity in a Family with TECRL-related CPVT Type 3: 1st Case in Kuwait	Ali A M A M Alkhabbaz
Poster	P-045	1	Cardiac Dysrhythmias and Electrophysiology	Evaluation of Electrophysiological and Clinical Features of Children with Wolff–Parkinson–White Electrocardiographic Pattern	Gulsah Emine Torun
MP	P-046	1	Cardiac Dysrhythmias and Electrophysiology	Conduction system pacing guided by 3D mapping in paediatric patients with congenitally corrected transposition of the great arteries.	Carla Favocchia
Poster	P-047	1	Cardiac Dysrhythmias and Electrophysiology	Prevalence, Characteristics and Natural History of Wolff-Parkinson-White syndrome in Neonates	Maria Munk Pærregaard
Poster	P-048	1	Cardiac Dysrhythmias and Electrophysiology	Diagnostic approach to the Paediatric Brugada Syndrome: A survey of international common practice	Christine Stratmann
Poster	P-049	1	Cardiac Dysrhythmias and Electrophysiology	Premature ventricular contractions affect the mechanics of the left ventricle during the sinus rhythm.	Radoslaw Pietrzak
Poster	P-050	1	Cardiac Dysrhythmias and Electrophysiology	Left ventricular diastolic function evaluation in children with ventricular arrhythmia	Radoslaw Pietrzak
Poster	P-051	1	Cardiac Dysrhythmias and Electrophysiology	An atypical Kawasaki presentation in a two-month-old	Natalie Abbassi

Poster	P-052	1	Cardiac Dysrhythmias and Electrophysiology	Cardiopulmonary exercise testing in children with structurally normal heart and premature ventricular complexes: the first results of prospective study	Rita Kunigeliene
Poster	P-053	1	Cardiac Dysrhythmias and Electrophysiology	WPW syndrome due to an left atrial appendage-to-left ventricular connection: Successful ablation in a boy presenting with aborted sudden cardiac death	Gunter Kerst
Poster	P-054	1	Cardiac Dysrhythmias and Electrophysiology	Results of the introduction of the decapolar navigational diagnostic catheter on safety, X-ray exposure and success rate of AVNRT ablation in children	Tomasz Marcin Książczyk
MP	P-055	1	Cardiac Dysrhythmias and Electrophysiology	Ablation of Accessory Pathways in the Cardiac Veins in Children	Matthias Johann Müller
Poster	P-056	1	Cardiac Dysrhythmias and Electrophysiology	Phenotypic Heterogeneity in a Family with TECRL-related CPVT Type 3: 1st Case in Kuwait	Mohammad Metwally
MP	P-057	1	Cardiac Dysrhythmias and Electrophysiology	ECG screening: is time to routinely introduce it in apparently healthy schoolchildren?	Stella Maiolo
Poster	P-058	1	Cardiac Dysrhythmias and Electrophysiology	Autosomal Recessive Long Qt Syndrome: Clinical aspects and therapy	Daniela Righi
Poster	P-059	1	Cardiac Dysrhythmias and Electrophysiology	The arrhythmic "threat" of non-compaction cardiomyopathy in children	Irma Battipaglia
Poster	P-060	1	Cardiac Dysrhythmias and Electrophysiology	Utility of implantable loop recorders in the diagnosis and management of cardiac symptoms in children and adolescents	Pedro Agudo Montore
Poster	P-061	1	Cardiac Dysrhythmias and Electrophysiology	Myocardial and Arrhythmic involvement with neuromuscular disorders: clinical and etiological heterogeneity in a cohort of pediatric population.	Anwar Baban
MP	P-062	2	Cardiac Dysrhythmias and Electrophysiology	Heart and beyond the heart: clinical spectrum of CACNA1C variants, literature revision.	Anwar Baban
Poster	P-063	2	Cardiac Dysrhythmias and Electrophysiology	Refractory fetal and neonatal supraventricular tachycardia associated with mitral valve mass: a case report	Marisa Pereira
Poster	P-064	2	Cardiac Dysrhythmias and Electrophysiology	Clinical profile of Paediatric Atrial Flutter – A tertiary care centre experience over 30 years	Muthukumar Ravichandran
Poster	P-065	2	Cardiac Dysrhythmias and Electrophysiology	Wolf Parkinson White syndrome or asymptomatic ventricular pre-excitation in children: electrophysiological properties changes in two different timing	Cristina Raimondo
Poster	P-066	2	Cardiac Dysrhythmias and Electrophysiology	Voltage abnormalities in 12-lead resting ECG in pediatric Duchenne muscular dystrophy patients	Magdalena Bazgier
Poster	P-067	2	Cardiac Dysrhythmias and Electrophysiology	Subcutaneous implantable cardioverter-defibrillators in children and adults with complex congenital heart diseases: single centre experience.	Linda Litwin
Poster	P-068	2	Cardiac Dysrhythmias and Electrophysiology	Subclinical Cardiac Autonomic Dysfunctions in Cancer Patients: Role of Heart Rate Variability?	Ekta Khandelwal
Poster	P-069	2	Cardiac Dysrhythmias and Electrophysiology	Regression Of Multiple Cardiac Rhabdomyomas In An Infant After Sirolimus Therapy	Jeremiah Claudine Calacal
Poster	P-070	2	Cardiac Dysrhythmias and Electrophysiology	When you hear hoofbeats, think of horses – not always true: Case of a newborn with a rare cause of bradycardia	Sascha Bapistella
Poster	P-071	2	Cardiac Dysrhythmias and Electrophysiology	Different response to vitamin D supplementation PVC with an RVOT morphology vs PVC with a LV fascicular morphology	Gabriel Cismaru
Poster	P-072	2	Cardiac Dysrhythmias and Electrophysiology	Arrhythmias and outcomes of Ebstein anomaly in children and adults	Sylvie Di Filippo
MP	P-073	2	Cardiac Dysrhythmias and Electrophysiology	"I have a dream": zero or near-zero X-ray pacemaker implantation in paediatric patients.	Massimo Stefano Silveti
Poster	P-074	2	Cardiac Dysrhythmias and Electrophysiology	Neurologic Manifestations in Children with Congenital Arrhythmia Syndromes Subanalysis of the German COGIA Study	Fridrike Stute
Poster	P-075	2	Cardiac Dysrhythmias and Electrophysiology	Predicting reflex syncope based on plethysmography: a new wearable device development and preliminary results	Sérgio Matoso Laranjo
MP	P-076	2	Cardiac Dysrhythmias and Electrophysiology	Surpassing the complex substrate of accessory pathways ablation in Ebstein Anomaly	Sérgio Matoso Laranjo
Poster	P-077	2	Cardiac Dysrhythmias and Electrophysiology	Pathophysiology of reflex syncope response: Role of the autonomic nervous system and baroreflex function	Sérgio Matoso Laranjo
Poster	P-078	2	Cardiac Dysrhythmias and Electrophysiology	The impact of frequent premature ventricular complexes morphology to cardiopulmonary exercise testing performance in children	Rita Kunigeliene
Poster	P-079	2	Cardiac Dysrhythmias and Electrophysiology	Implantable cardioverter-defibrillator in a patient with Life-threatening Inherited Type 3 CPVT Gen (TECRL) after Sudden Cardiac Arrest.	Eihadi Husein Aburawi
Poster	P-080	2	Cardiac Dysrhythmias and Electrophysiology	Ablation in patients with congenital heart disease	Berna Şaylan Çevik
Poster	P-081	2	Cardiac Dysrhythmias and Electrophysiology	Defibrillation test in paediatric patients: should be done?	Jose Cruzalegui Gomez
Poster	P-082	2	Cardiac Dysrhythmias and Electrophysiology	Arrhythmias in Ebstein's anomaly: 15 – years' single center experience of catheter ablations	Valentyna Khanenova
Poster	P-083	2	Cardiac Dysrhythmias and Electrophysiology	Celebrating 25th anniversary of a paediatric arrhythmia unit in Barcelona. What have we learned?	Georgia Sarquella Brugada
Poster	P-084	2	Cardiac Dysrhythmias and Electrophysiology	Management of cardiac arrhythmias in paediatric patients with TANGO2-deficiency disorder	Georgia Sarquella Brugada
Poster	P-085	2	Cardiac Dysrhythmias and Electrophysiology	Pulmonary veins isolation for paediatric atrial fibrillation: case series.	Jose Cruzalegui Gomez
Poster	P-086	2	Cardiac Dysrhythmias and Electrophysiology	Single-lead ECGs: the future of home-monitoring in neonatal supraventricular tachycardias	Jose Cruzalegui Gomez
Poster	P-087	2	Cardiac Dysrhythmias and Electrophysiology	Near-zero fluoroscopy during electroanatomic mapping-guided pediatric catheter ablation	Fredy Chipa Ccasani
Poster	P-088	2	Cardiac Dysrhythmias and Electrophysiology	Cardiac sympathectomy as adjuvant treatment for the prevention of malignant arrhythmias in the pediatric population	Fredy Chipa Ccasani
Poster	P-089	2	Cardiac Dysrhythmias and Electrophysiology	Ventricular tachycardia substrates in young patients with repaired tetralogy of Fallot	Justin Wallet
Poster	P-090	2	Cardiac Dysrhythmias and Electrophysiology	Congestive heart failure in infants diagnosed with supraventricular arrhythmias	Minna Mecklin
MP	P-091	2	Cardiac Dysrhythmias and Electrophysiology	Comparing predictive power of PRIMACY, HCMRisk-Kids and ESC HCM risk-calculator in assessing risk for sudden cardiac death	Ingegerd Östman Smith
Poster	P-092	2	Cardiac Dysrhythmias and Electrophysiology	Incessant post-operative arrhythmia in a toddler - when the usual therapy is not enough	Guilherme Lourenço
Poster	P-093	2	Cardiac Dysrhythmias and Electrophysiology	Practice variability, treatment efficacy and long-term outcomes in fetal and neonatal atrial flutter	Magdalena Bazgier
Poster	P-094	1	Cardiac Imaging	Congenital diverticulum of the left ventricle, as an accidental finding in a healthy child. Clinical case.	Olha Zborovska
Poster	P-095	1	Cardiac Imaging	Screening Congenital Cardiac Diseases by Hand-Held Echocardiography in Low-Risk Newborns	Ayhan Pektaş
MP	P-096	1	Cardiac Imaging	3D MRA with image-based navigation for highly-efficient imaging in patients with Congenital Heart Disease- Single center study	Anastasia Fotaki
Poster	P-097	1	Cardiac Imaging	Echocardiographic Findings in MIS-C patients	Ikram Chamtoury
Poster	P-098	1	Cardiac Imaging	Molecular Imaging of Microcalcification in Thoracic Aortopathy: associations with high-risk features	Alexander James Fletcher

MP	P-099	1	Cardiac Imaging	Hypoplastic left heart syndrome has asymmetric leaflet expansion and increased tenting volume of the tricuspid valve: A prospective 3DE study	Martha Maria Moran
Poster	P-100	1	Cardiac Imaging	Retrospective study of the safety of deep sedation during cardiovascular MRI in children and adolescents with congenital and acquired heart disease	Marcel Schmidt
Poster	P-101	1	Cardiac Imaging	Patency of neonatally identified interatrial communications in young children	Sofie Dannebo
Poster	P-102	1	Cardiac Imaging	Management of Incidentally Discovered Huge Right Atrial Appendage Aneurysm	Mohamed Metwally Abdelaal
Poster	P-103	1	Cardiac Imaging	Correlation between 3D-echocardiography and cardiopulmonary fitness in patients with univentricular heart: A multicentre prospective study	Pascal Amedro
Poster	P-104	1	Cardiac Imaging	Prevalence and subtypes of interatrial communications in 12,718 newborns	Elisabeth Maria Blixenkron Møller
Poster	P-105	1	Cardiac Imaging	Local arterial stiffness assessment on humans: Comparison between the Bramwell-Hill Equation and Direct Pulse Wave Imaging by Ultrafast Ultrasound	Rahna Rasouli
Poster	P-106	1	Cardiac Imaging	Echocardiographic normative reference intervals for left ventricular parameters in 13,454 infants – a Copenhagen Baby Heart Study	R Ottilia Birgitta Voegg
Poster	P-107	1	Cardiac Imaging	Inferior Vena Cava Occlusion in a Preterm Infant	Shabih Manzar
Poster	P-108	1	Cardiac Imaging	Hypoplastic left heart syndrome and congenital heart block, a rare association in a newborn.	Andriana Malska
Poster	P-109	1	Cardiac Imaging	A rare case of Pulmonary atresia intact ventricular septum with a right Ventricle-Dependent Coronary Circulation through a large coronary fistula	Mohamed Metwally Abdelaal
Poster	P-110	1	Cardiac Imaging	Unusual Mitral valve malformation which mimic Ebstein Anomaly of The Mitral Valve	Mohamed Metwally Abdelaal
Poster	P-111	1	Cardiac Imaging	Impact of maternal connective tissue disease on functional and structural abnormalities of the heart in the offspring	Terese Frellesen Neumann
Poster	P-112	1	Cardiac Imaging	Maternal pre-existing diabetes and gestational diabetes and the risk of Bicuspid aortic valve in the offspring.	Line Stormly
Poster	P-113	1	Cardiac Imaging	Screening for rheumatic heart disease in Sierra Leone: A pilot study	Ruth Solana
Poster	P-114	1	Cardiac Imaging	A case of acute myocarditis successfully treated with colchicine	Akif Kavgacı
Poster	P-115	1	Cardiac Imaging	Virtual treatment planning for Fontan-palliated patients: Prediction of Hepatic Blood flow distribution	Marie Schafstedde
Poster	P-116	1	Cardiac Imaging	Does magnetic resonance feature tracking help to decide operation timing in patients with severe aortic regurgitation and combined stenosis?	Nerejda Shehu
Poster	P-117	1	Cardiac Imaging	Cardiac findings in newborn twins	Julie Molin
MP	P-118	1	Cardiac Imaging	The neonatal QRS complex and its association with left ventricular mass	Julie Molin
Poster	P-119	1	Cardiac Imaging	MRI quantification of collateral burden under general anaesthetic and physiological sleep conditions in the single ventricle circulation post Norwood	Malenka Mona Bissell
Poster	P-120	1	Cardiac Imaging	Altered haemodynamics in the reconstructed neo-aorta after the Norwood operation in hypoplastic left heart syndrome	Rawan Abuzinadah
Poster	P-121	1	Cardiac Imaging	Speckle tracking echocardiography in patients with Multisystem Inflammatory Syndrome in Children (MIS-C): a retrospective cohort study	Stejara Augusta Netea
Poster	P-122	1	Cardiac Imaging	Speckle tracking echocardiography in patients with Multisystem Inflammatory Syndrome in Children (MIS-C): a systematic review	Stejara Augusta Netea
Poster	P-123	1	Cardiac Imaging	Fragmented QRS efficiency to predict right cardiac function in patients with repaired tetralogy of fallot: comparison with cardiac magnetic resonance	Bitu Zargaran
Poster	P-124	1	Cardiac Imaging	BMI affects ventricular function recovery in children after PIMS-TS	Halszka Kamińska
MP	P-125	1	Cardiac Imaging	The prognostic role of systolic longitudinal strain in congenital heart disease with systemic right ventricle: a systematic review and meta-analysis	Dan M. Dorobantu
Poster	P-126	1	Cardiac Imaging	Hemodynamic Analysis of Pulmonary Artery for Congenital Right-Side Heart Disease in Adulthood by 4D-Flow MRI	Akio Inage
Poster	P-127	1	Cardiac Imaging	Non-invasive myocardial work indices in patients with Fontan circulation	Alessia Basso
Poster	P-128	1	Cardiac Imaging	How not to misdiagnose anomalous origin of the right coronary artery from the pulmonary artery in the pediatric population	Hiyam Mahmoud
Poster	P-129	1	Cardiac Imaging	Cardiac Reserve Function assessed by Dobutamine Stress Echocardiography and Myocardial Deformation Measures in Childhood Cancer Survivors	Olof Broberg
Poster	P-130	1	Cardiac Imaging	Early cardiac involvement in Multisystem Inflammatory Syndrome in Children secondary to different SARS-CoV-2 virus variants infection	Alessia Basso
Poster	P-132	1	Cardiac Imaging	Contrast-free 3D MRA for efficient sequential segmental analysis in patients with Congenital Heart Disease- Single center study	Anastasia Fotaki
Poster	P-133	1	Cardiac Imaging	Left atrial function and strain in pediatric hypertrophic cardiomyopathy with preserved ejection fraction	Iolanda Muntean
Poster	P-134	1	Cardiac Imaging	The exceptional value of T1 native mapping during Cardiac Magnetic Resonance, in follow up of patients with surgically corrected Fallot Tetralogy	Niki Lama
Poster	P-135	1	Cardiac Imaging	Cardiac mechanics evaluation in pre-school age children with preterm birth history: a speckle-tracking and 4D echocardiography study	Federica Savio
Poster	P-136	1	Cardiac Imaging	Experience with the left ventricular training for congenitally corrected transposition of the great arteries	Olena Stohova
Poster	P-137	1	Cardiac Imaging	The impact of maternal COVID-19 during pregnancy on the fetal heart: does it cause subclinical postnatal echocardiographic cardiac dysfunction?	Liat Gelernter Yaniv
Poster	P-138	2	Cardiac Imaging	A case of multiple life-threatening cardiac rhabdomyomas in a newborn baby	Sally Hall
Poster	P-139	2	Cardiac Imaging	Utility of longitudinal strain in depicting risk of major adverse cardiac events in children with diagnosed myocarditis	Nele Roefs
Poster	P-140	2	Cardiac Imaging	Giant coronary aneurysm after Kawasaki disease: a case report	Marisa Pereira
Poster	P-141	2	Cardiac Imaging	Extended Reality Visualisation improves spatial understanding, enabling decision-making and surgical planning of complex congenital heart surgeries	Mahesh Kappanayil
Poster	P-142	2	Cardiac Imaging	Childhood outcomes in a cohort of children with and without prenatal cardiac echogenic foci: An electronic birth cohort study in Wales, UK	Lisa Hurt
Poster	P-143	2	Cardiac Imaging	Cardiac features in Pediatric Multi-systemic Inflammatory Syndrome	Cloe Huet
Poster	P-144	2	Cardiac Imaging	Towards a noninvasive assessment of ventricular contractility using ultrasound-based shear wave imaging: a pediatric pilot study	Maelys Venet
Poster	P-145	2	Cardiac Imaging	Correlation of Cardiopulmonary exercise testing (CPET) parameters, in adults with repaired Fallot Tetralogy, and Cardiac Magnetic Resonance (CMR).	Niki Lama
Poster	P-146	2	Cardiac Imaging	Uncertainty Quantification Study of Machine Learning Computational Fluid Dynamics Pipeline for Coarctation of the Aorta using Doppler Echocardiography	Vincent Milimo Masilokwa Punabantu

MP	P-147	2	Cardiac Imaging	Newly High-Frame Rate Blood Speckle Tracking Echocardiography For New Insights of Aortic Flow Pattern in Children	Massimiliano Cantinotti
Poster	P-148	2	Cardiac Imaging	Organization of Pediatric Echocardiography Laboratories: Impact of Sonographers on Clinical, Academic, and Financial Performance	Maelys Venet
Poster	P-149	2	Cardiac Imaging	Left atrial strain by speckle-tracking: incremental role in diastolic assessment of pediatric patients with chronic kidney disease	Gabriela Nunes Leal
Poster	P-150	2	Cardiac Imaging	Real-Time Remote-Mentored Echocardiography in Management of Neonates with Critical Congenital Heart Defects	Håvard Solvin
Poster	P-151	2	Cardiac Imaging	Non-contrast 4-dimensional flow angiography – accuracy of vessel areas	Barbara Elisabeth Ursula Burkhardt
Poster	P-152	2	Cardiac Imaging	When the valve stops clicking..	Precylia Philo Fernandes
Poster	P-153	2	Cardiac Imaging	Echocardiographic indices of LV dysfunction in Duchenne Muscular dystrophy	Jaroslav Meyer Szary
Poster	P-154	2	Cardiac Imaging	Differences between myocardial deformation response to preload and exercise stress in the Fontan circulation	Simone Goa Diab
Poster	P-155	2	Cardiac Imaging	Congenital fistulas with particular origins from the right aortic cusp and right atrial appendage to the pulmonary artery	Gabriela Doros
Poster	P-156	2	Cardiac Imaging	The prognostic value of the Right atrial area in patients with repaired Tetralogy of Fallot	Alkistis Eleni Kalesi
Poster	P-157	2	Cardiac Imaging	The prognostic value of Right Ventricular Ejection Fraction, measured by CMR, in the assessment of patients with Repaired Tetralogy of Fallot	Alkistis Eleni Kalesi
Poster	P-158	2	Cardiac Imaging	Parameters of ventilation/perfusion matching at cardiopulmonary exercise test might detect asymmetric lung perfusion in Fontan patients	Alessia Callegari
Poster	P-159	2	Cardiac Imaging	The prognostic value of myocardial work in the assessment of patients with repaired Tetralogy of Fallot	Alkistis Eleni Kalesi
Poster	P-160	2	Cardiac Imaging	Comparison between 3D Echocardiography and CMR Imaging in the assessment of right ventricular volumes in patients with repaired Tetralogy of Fallot	Alkistis Eleni Kalesi
Poster	P-161	2	Cardiac Imaging	Impact of Ventricular Geometrical Characteristics on Myocardial Stiffness Assessment using Shear Wave Elastography in Healthy Children and Young Adult	Aimen Malik
Poster	P-162	2	Cardiac Imaging	Echocardiographic Flow Patterns in the Right Ventricle-to-Pulmonary Artery Conduit after Norwood-Sano procedure	Giulia Ceconi
Poster	P-163	2	Cardiac Imaging	Myocardial stiffness assessment by ultrasound in humans: comparison between shear wave elastography, natural mechanical waves, and myocardial stretch	Jose Carlos Villalobos Lizardi
Poster	P-164	2	Cardiac Imaging	Vascular and Ventricular Responses to Exercise in Pediatric Marfan Syndrome	Nairy Khodabakhshian
MP	P-165	2	Cardiac Imaging	Hemodynamics in children with partial anomalous pulmonary venous return and atrial septal defect using 4D-flow MRI	Fraser Maurice Callaghan
Poster	P-166	2	Cardiac Imaging	Juxtaposition of the Atrial Appendages: Recognition and Clinical Implications	Heba Abdhmid
MP	P-167	2	Cardiac Imaging	Intracavitary blood flow dynamics in the systemic right ventricle: a 4D-Flow MRI study	Giulia Pasqualin
Poster	P-168	2	Cardiac Imaging	Left atrial strain in children with idiopathic dilated cardiomyopathy	Katarzyna Luczak Wozniak
Poster	P-169	2	Cardiac Imaging	Genotype-Phenotype Interactions in Left Ventricular Morphology, Diastolic Function, and Systolic Function in Pediatric Loays-Dietz Syndrome	Nairy Khodabakhshian
Poster	P-170	2	Cardiac Imaging	Utilization of 3D-virtual cardiovascular models for operative planning of complex congenital heart defects: a single-center 1-year experience	Peter Olejnik
MP	P-171	2	Cardiac Imaging	Association Between Arterial Stiffness of the Common Carotid Artery and Left Ventricular Function in Children, Adolescents and Young Adults	Franziska Sciuk
MP	P-172	2	Cardiac Imaging	Regional Elevation of Liver T1 in Fontan-Associated Liver Disease	Edythe Tham
Poster	P-173	2	Cardiac Imaging	Role of speckle-tracking echocardiography and feature tracking-CMR in evaluation of myocardial deformation in repaired Tetralogy of Fallot patients	Alice Pozza
Poster	P-174	2	Cardiac Imaging	Long term cardiovascular effects of COVID-19 infection in children	Dareliena Karaviti
Poster	P-175	2	Cardiac Imaging	A rare case of abnormal origin of the left circumflex coronary artery from the right branch pulmonary artery	Mohamed Metwally Abdelaal
MP	P-176	2	Cardiac Imaging	Early left atrial dysfunction by strain echocardiography in Duchenne Muscular dystrophy	Jaroslav Meyer Szary
Poster	P-177	2	Cardiac Imaging	Automated measurements based on artificial intelligence software in pediatric echocardiography: a feasibility study	Xavier Iriart
Poster	P-178	2	Cardiac Imaging	An echocardiographic score to predict central venous pressure in children with Heart disease	Fiorentina Guida
Poster	P-179	2	Cardiac Imaging	Evaluation of natural mechanical wave velocities in children with pulmonary arterial hypertension.	Matthew Henry
Poster	P-180	2	Cardiac Imaging	Beyond Aortopathy: Reduced Left Atrial Strain and Diastolic Dysfunction in Pediatric Loays-Dietz and Marfan patients.	Alison Howell
Poster	P-182	1	Cardiovascular Morphology	Investigating the prevalence of the patent ductus arteriosus in term neonates	Anton Friis Mariager
Poster	P-183	1	Cardiovascular Morphology	Prevalence and time of closure of Open Ductus Arteriosus in term born neonates	Anton Friis Mariager
Poster	P-184	1	Cardiovascular Morphology	Impact of the Maternal Body Mass Index on the Structure and Function of the Heart in Newborns	Mette Marie Olsen Noerregaard
Poster	P-185	1	Cardiovascular Morphology	A rare truncus variant with pulmonary dominance and ascending aorta as a side branch visualized using open source software	Bastiaan Rebel
Poster	P-186	1	Cardiovascular Morphology	Univentricular heart in human heterotaxy syndrome: an anatomic study.	Lucile Houyel
Poster	P-187	1	Cardiovascular Morphology	Multidisciplinary Management in Children with Marfan Syndrome and Related Disorders: Why a Dedicated Marfan Unit Can Make a Difference?	Anwar Baban
Poster	P-188	2	Cardiovascular Morphology	Treatment and outcome in patients with congenital idiopathic dilatation of the right or left atrium. A report of seven cases	Nicolas Marcel Fordeker
Poster	P-189	2	Cardiovascular Morphology	Mitral insufficiency in adolescents and older children after rheumatic disease: two clinical observations from Cameroon.	Tony Nengom Jocelyn
Poster	P-190	2	Cardiovascular Morphology	Local arterial stiffness measured by ultrafast ultrasound imaging in pediatric cancer survivors treated with anthracyclines	Rahna Rasouli
Poster	P-191	2	Cardiovascular Morphology	A rare cause of paradoxical embolization in a child with operated sinus venosus atrial septal defect	Mario Giordano
Poster	P-192	2	Cardiovascular Morphology	Subclinical vascular changes in children with well-regulated type 1 diabetes	Ebba Bergdahl
Poster	P-193	2	Cardiovascular Morphology	Criscross heart: an outflow tract defect? An anatomic study.	Segolene Bernheim
MP	P-194	2	Cardiovascular Morphology	CFD modelling of an aortic narrowing with Beta-Blocker: towards a multi-fidelity predictive capability	Jie Wang

Poster	P-195	1	Congenital Heart Surgery	The V-shaped Double-layer Patch Technique for Complete Atrioventricular Septal Defect	Shanquan Sun
Poster	P-196	1	Congenital Heart Surgery	Novel Mechanism of Pulsus Bisferiens Encountered During Pacemaker Placement	Todd Glenski
Poster	P-197	1	Congenital Heart Surgery	Left Ventricular Outflow Tract Velocity Time Integral (LVOT-VTI) as marker of left ventricular function in post-op CHD patients	Samir Bhatia
Poster	P-198	1	Congenital Heart Surgery	Long-term follow-up of atrioventricular valve function in Fontan patients	Thierry Bove
Poster	P-199	1	Congenital Heart Surgery	Our 28 years experience with heart transplantation in paediatric patients and adults with congenital heart disease	María Luz Polo López
Poster	P-200	1	Congenital Heart Surgery	Outcomes after Ross procedure with pulmonary autograft reinforcement using reimplantation technique.	Lisa Guirgis
Poster	P-201	1	Congenital Heart Surgery	Echocardiographic predictors of atrioventricular valve regurgitation after surgical repair of complete atrioventricular septal defect	Camilla Calvieri
Poster	P-202	1	Congenital Heart Surgery	Double outlet right ventricle Fallot type – Is staged repair inferior to primary repair?	Jasmin Illig
Poster	P-203	1	Congenital Heart Surgery	hand made tri leaflet right ventricle to pulmonary artery conduits; a cost effective alternative	Faiz Rasool
Poster	P-204	1	Congenital Heart Surgery	Tetralogy of Fallot in Toddler with Left Pulmonary Artery Agenesis - A Challenging Management. What Means Better?	Cristina Flavia Al-Akel
Poster	P-205	1	Congenital Heart Surgery	Surgical valvotomy versus balloon dilatation for children with severe aortic valve stenosis: A systematic review	Huzeifa Elhedai

Poster	P-601	1	Pulmonary hypertension, heart failure and transplantation	Selective eating habits lead to pulmonary hypertension and neurological impairment in a child: rare case of Thiamin deficiency in the developed world.	Sophie Groignet
Poster	P-602	1	Pulmonary hypertension, heart failure and transplantation	Serial Echocardiographic indices in relation to transplant-free survival in hypoplastic left heart syndrome	Aine Lynch
Poster	P-603	1	Pulmonary hypertension, heart failure and transplantation	Doppler tissue imaging in assessment of pulmonary hypertension secondary to congenital heart disease	Doaa Mohamed Abdel Aziz
Poster	P-604	1	Pulmonary hypertension, heart failure and transplantation	The right ventricle longitudinal strain relation to determinants of risk in children with pulmonary arterial hypertension - preliminary experience.	Malgorzata Zuk
Poster	P-605	1	Pulmonary hypertension, heart failure and transplantation	Understanding right ventricular functional response to exercise in children with pulmonary arterial hypertension by comparison to elite athletes	Dan M. Dorobantu
Poster	P-606	1	Pulmonary hypertension, heart failure and transplantation	Pediatric Heart transplantation in different age groups	Csaba Vilmányi
Poster	P-607	1	Pulmonary hypertension, heart failure and transplantation	Echocardiographic Right Ventricular Wall Tension Indicates Disease Severity in Children With Pulmonary Arterial Hypertension	Hosan Hasan
Poster	P-608	1	Pulmonary hypertension, heart failure and transplantation	Sacubitril/valsartan in treatment of heart failure with left ventricle systolic dysfunction in infant with congenital LV aneurysm: case report	Kamil Kadyrov
Poster	P-609	1	Pulmonary hypertension, heart failure and transplantation	Ukrainian Pediatric Center for Pulmonary Arterial Hypertension: organization of work in times of war.	Valentyna Khanenova
Poster	P-610	1	Pulmonary hypertension, heart failure and transplantation	Pulmonary hypertension and right ventricular remodeling in children with severe bronchopulmonary dysplasia in the first 5 years of life	Devi Gnanam
Poster	P-611	1	Pulmonary hypertension, heart failure and transplantation	Impact of right ventricular dysfunction in heart failure: A clinical study of heart transplant recipients with insights from a mathematical model	Komarakshi R Balakrishnan
Poster	P-612	1	Pulmonary hypertension, heart failure and transplantation	Severe Porto-pulmonary Hypertension in a patient affected by congenital intrahepatic portosystemic shunt (Abernethy type II).	Michele Carboni
Poster	P-613	2	Pulmonary hypertension, heart failure and transplantation	An accessory donation: uncovering a WPW pattern in a heart transplant child recipient.	Luis Garcia Guereta
Poster	P-614	2	Pulmonary hypertension, heart failure and transplantation	Neonatal infarction.	Carlos Baena Palomino
Poster	P-615	2	Pulmonary hypertension, heart failure and transplantation	Neonatal dilated cardiomyopathies: diagnosis and outcomes at a tertiary center.	Cosimo Marco Campanale
Poster	P-616	2	Pulmonary hypertension, heart failure and transplantation	Cor Triatriatum Sinister and aortic coarctation, a rare association	Maria Daniela Romero Espinoza
Poster	P-617	2	Pulmonary hypertension, heart failure and transplantation	The development of idiopathic pulmonary hypertension during treatment with methylphenidate in pediatric patient with Attention-Deficit Hyperactivity D	Katarzyna Polak
Poster	P-618	2	Pulmonary hypertension, heart failure and transplantation	The development of idiopathic pulmonary hypertension during treatment with methylphenidate in patient with Attention-Deficit Hyperactivity Disorder	Katarzyna Polak
Poster	P-619	2	Pulmonary hypertension, heart failure and transplantation	Beyond 100 days: Single center Experience of Outcomes and Complications of long-term VAD as a bridge to Cardiac Transplantation in Children	Nicola Boyd
Poster	P-620	2	Pulmonary hypertension, heart failure and transplantation	Concomitant Pulmonary Artery Banding as Heart Failure Therapy in Patients undergoing Congenital Heart Surgery	Kai Ma
Poster	P-621	2	Pulmonary hypertension, heart failure and transplantation	Risk factors of heart failure and prognosis in Ebstein anomaly	Sylvie Di Filippo
Poster	P-622	2	Pulmonary hypertension, heart failure and transplantation	Long-term survival and functional status of adult patient with Eisenmenger Syndrome	Sylvie Di Filippo
Poster	P-623	2	Pulmonary hypertension, heart failure and transplantation	Does echocardiography correlate with right heart catheterization in the assessment of pulmonary arterial hypertension?	Baher Matta Hanna
Poster	P-624	2	Pulmonary hypertension, heart failure and transplantation	The concept of right ventricular-pulmonary arterial coupling explored in chronic pulmonary regurgitation	Rahi Alipour Symakani
Poster	P-625	2	Pulmonary hypertension, heart failure and transplantation	A Thirty-Year Review Of Shared Care Paediatric Cardiac Transplantation Outcomes In Republic of Ireland	Esme Dunne
Poster	P-626	2	Pulmonary hypertension, heart failure and transplantation	Paradigm Shift In Management Of Shared Care Paediatric Heart Transplantation Patients During The COVID-19 Pandemic.	Esme Dunne
Poster	P-627	2	Pulmonary hypertension, heart failure and transplantation	Evaluation of left ventricular diastolic flow dynamics in children with pulmonary arterial hypertension using blood speckle tracking.	Matthew Henry

Poster	P-628	2	Pulmonary hypertension, heart failure and transplantation	Mid and Long-term efficacy of Macitentan in children with advanced pulmonary hypertensive vascular disease - a single centre experience	Sulaima Albinni
Poster	P-629	2	Pulmonary hypertension, heart failure and transplantation	Additional interventional and surgical treatment in pediatric patients with pulmonary arterial hypertension – single center experience.	Joanna Mlodawska
MP	P-630	2	Pulmonary hypertension, heart failure and transplantation	The Unintended Consequence: Obesity in Children Following a Diagnosis of Arrhythmogenic Right Ventricular Cardiomyopathy	Alison Howell
Poster	P-631	1	Sports Cardiology, Physical Activity and Prevention	Assessment of orthostatic intolerance in adolescents with Myalgic Encephalomyelitis/ Chronic Fatigue Syndrome (ME/CFS) and healthy controls	Ariane Leone
Poster	P-632	1	Sports Cardiology, Physical Activity and Prevention	Atypical maternal interaction is associated with elevated levels of hair cortisol in children	Franziska Köhler Dauner
Poster	P-633	1	Sports Cardiology, Physical Activity and Prevention	Prevalence, determinants and clinical characteristics of “Super Fontan”	Hideo Ohuchi
Poster	P-634	1	Sports Cardiology, Physical Activity and Prevention	Impaired aerobic capacity in adolescents and young adults after treatment for cancer or non-malignant haematological disease.	Pascal Amedro
Poster	P-635	1	Sports Cardiology, Physical Activity and Prevention	Reference values of aerobic fitness in the contemporary paediatric population	Pascal Amedro
Poster	P-636	1	Sports Cardiology, Physical Activity and Prevention	Comparison of the results of CPET in the Fontan population versus the population without congenital heart disease.	Roman Gestoso
Poster	P-637	1	Sports Cardiology, Physical Activity and Prevention	Impact of the COVID-19 pandemic on the mental health and physical activity of children and adolescents in Germany	Christina Sitzberger
Poster	P-638	1	Sports Cardiology, Physical Activity and Prevention	Digital Health Nudging in pediatric patients with congenital heart disease: a randomized controlled trial	Laura Willinger
Poster	P-639	1	Sports Cardiology, Physical Activity and Prevention	Exercise echocardiography combined with cardiopulmonary exercise testing in small children	Isabelle Schöffl
MP	P-640	1	Sports Cardiology, Physical Activity and Prevention	Exercise Capacity, Endothelial Function, Muscle Mass and Strength in Pediatric Fontan Patients	Tania Davila
Poster	P-641	1	Sports Cardiology, Physical Activity and Prevention	Myocarditis and sports in the young: Data from a nationwide registry on myocarditis – MYKKE-Sport	Annika Weigelt
Poster	P-642	1	Sports Cardiology, Physical Activity and Prevention	A new treadmill protocol for cardiopulmonary exercise testing in schoolchildren using field-derived data	Annika Weigelt
Poster	P-643	1	Sports Cardiology, Physical Activity and Prevention	Covid-19 infections and vaccination in children who do sports	Nurdan Erol
Poster	P-644	1	Sports Cardiology, Physical Activity and Prevention	Open field exercise stress testing in very young children with congenital heart disease – reference values for 4-8 year old children	Christian Paech
Poster	P-645	1	Sports Cardiology, Physical Activity and Prevention	First real life data on the diving reflex in healthy children	Christian Paech
Poster	P-646	1	Sports Cardiology, Physical Activity and Prevention	Blood pressure profiles and cardiovascular risk profiles in 8-12-year-old children following pre-eclampsia	Michelle Anna-Katarina Renlund
Poster	P-647	1	Sports Cardiology, Physical Activity and Prevention	The impact of the Covid-19 pandemic on recruitment and follow-up in a prospective exercise intervention in young people with congenital heart disease	Lynsey C Forsythe
Poster	P-648	1	Sports Cardiology, Physical Activity and Prevention	Elevated Lipoprotein(a) in the Youth – Effects on the Vascular System	Magdalena Langer
Poster	P-649	2	Sports Cardiology, Physical Activity and Prevention	Comparison of total physical activity levels between device-based and self-reported measurement among young people with congenital heart disease	Nurul Hidayah Amir
Poster	P-650	2	Sports Cardiology, Physical Activity and Prevention	Return to competitive sport after oncohematological disease: One will not fit all.	Giulia Cafiero
Poster	P-651	2	Sports Cardiology, Physical Activity and Prevention	Medical care of patients with Congenital Heart Disease (CHD) during the first 18 months of the COVID-19 pandemic in Germany	Paul Christian Helm
MP	P-652	2	Sports Cardiology, Physical Activity and Prevention	Cardiopulmonary screening after SARS-CoV-2 infection in children and adolescents returning to sports: a retrospective analysis	Maximilian Dettenhofer
Poster	P-653	2	Sports Cardiology, Physical Activity and Prevention	Resilience as a protective factor- study in children and adolescents with and without chronic diseases visiting a summercamp	Nicola Stöcker
Poster	P-654	2	Sports Cardiology, Physical Activity and Prevention	Parental Recommendations and Exercise Attitudes in Congenital Hearts (PREACH)	Curtis A Wadey
Poster	P-655	2	Sports Cardiology, Physical Activity and Prevention	Detection of risk factors for atherosclerosis in families with premature acute coronary syndrome	Kristina Rücklová
Poster	P-656	2	Sports Cardiology, Physical Activity and Prevention	Evaluation of fitness capacities of children and young adults with Marfan and related conditions	Aitor Guitarte Vidaurre
Poster	P-657	2	Sports Cardiology, Physical Activity and Prevention	Does surgical complexity influence aerobic capacity or sports participation in children with congenital heart disease?	Jim Potts
Poster	P-658	2	Sports Cardiology, Physical Activity and Prevention	Sport resumption and quality of life after surgical correction of anomalous origin of a coronary artery from the opposite sinus	Camille Océane André
Poster	P-659	2	Sports Cardiology, Physical Activity and Prevention	assessment of exercise capacity in patients with complex congenital heart disease and low pulmonary flow (glenn palliation/pulmonary flow restriction)	Manso Begona
Poster	P-660	2	Sports Cardiology, Physical Activity and Prevention	How well are CHD patients and their twin siblings vaccinated in times of the COVID-19 pandemic?	Jia Li
Poster	P-661	2	Sports Cardiology, Physical Activity and Prevention	Energy Drinks and Adverse Cardiovascular Events in Minors: A Review of Case Reports	Pengzhu Li
Poster	P-662	2	Sports Cardiology, Physical Activity and Prevention	QTc at brisk standing in children with psychiatric drug treatment	Estelle Naumburg
Poster	P-663	2	Sports Cardiology, Physical Activity and Prevention	Exercise capacity in children with D-Loop Transposition of the Great Arteries: can we identify factors related to worse exercise performance?	Erika Rezola Arcelus
Poster	P-664	2	Sports Cardiology, Physical Activity and Prevention	Perception of functional capacity and physical activity and correlation with response to physical exercise in pediatric patients with Fontan surgery	Roman Gestoso
MP	P-665	2	Sports Cardiology, Physical Activity and Prevention	The Identification and Impact of Abnormal Spirometry Patterns on Functional Capacity in Pediatric Patients with Congenital Heart Disease	Angeles Fuertes Moure
Poster	P-666	2	Sports Cardiology, Physical Activity and Prevention	Nutrition in children and adolescents with congenital heart defects during the COVID-19 pandemic	Paul Christian Helm
